Experience(After Gradation)

((Site engineer. in hero office _ 26/11/2019 to 23/10/2020))

Work on site during the period with the office on.....

1. Work on all operational items on site
2. Executing all finishing items for the final stage of finishing residential units
3. Work on treatments for old buildings, all treatments have been implemented
4. Knowledge of all types of concrete And work on all of them on site
5. The ability to manage the site and deal with workers well

((Site engineer. in Osama gamal esmael office _ 6/6/2021 to 8/10/2021))

1- I was working as a site engineer at this time The establishment of a number of

buildings for the water company, shops for renting a concrete structure only,

and I was the authorized person to deal with government agencies from

counting quantities and finalizing extracts, beside my supervision on the site

as a civil engineer

8- Implementation of a concrete structure building and finishing also for the Ministry of Housing in Shebin El-Koum and supervising it until the final delivery and completing the disbursement of the final extract

And the implementation of a six-story building affiliated to the Ministry of Housing in tala, Menoufia Governorate.....

9- I moved to a new company fekra for Trading and Contracting

((Site Engineer in Site at Fekra for Engineering and Constructions))

Project: Burj Al Arab Prison Construction Project

1-PERIOD: FROM: Oct. 2021 TO: february.2022

2-Owner: Egyptian Ministry of Interior.

3-Consultant: El-Afifi House of Expertise.

4- Main Contractor: AL-Fath for Engineering and Constructions.

5- MEP SUB- Contractor: Fekra for Engineering and Constructions

- in that period I participated in the implementation of the prison from replacing buildings that did not start from scratch until you started in concrete and also participated in the finishing items in other buildings
- I participated in the finishing of the prison kitchen from the beginning to the epoxy stage
- And also the boiler building from replacement to final finishing
- was also working on receiving the concrete coming from our ready-mix concrete station, and I mastered all the procedures and tests so that the concrete would be sound for pouring in all conditions.....
- **((At the end of februar 2022, I was transferred to Sohag prison of the same company**
- the project started from the beginning of the palletizing and drilling until the present
- Drilling item completed
- Substitution and soil tests
- mass concrete and reinforced concrete, and work is still going on in concrete items from pillars, walls and coulms
