

C V

Eslam Saad Elgohary Sarhan

As I became Engineer, I started to become more interested in how buildings were constructed and stood up. This passion for engineering has led to an ambition to gain a degree qualification which I can then use as a stepping stone to become a civil engineer.

Civil / Structural Engineer

 Tanta - ALGharbia -

Egypt Military service: Finished at 1/12/2020  (+2)

01009242619
