

AHMED KAMAL EL-SHATOURY

CIVIL ENGINEER

PROFILE INFO

Expert civil engineer with +4 years of experience in the industry who has been involved in many projects, successfully implementing project cost procedures and monitoring quality construction, Ability to work alone or with a team
Proven leadership skills include being detail-oriented and managing time wisely.

EDUCATION HISTORY

Bachelor of Civil Engineering

El-Shorouk academy, Faculty of engineering

- Class 2018

Graduation project : Roads and Airways engineering

El-Shorouk academy, Faculty of engineering

- Grade : Excelent

INTERNSHIPS

- **Surveying project (2014)**

Location: El-Shorouk Academy

Relevant course: Surveying.

- **Building Construction (2015)**

Location: Suez Canal Authority

Relevant course: Structure and Concrete.

- **Roads and offshore Construction (2016)**

Location: Suez Canal Authority

Relevant course: Public works Engineering.

TECHNICAL SKILLS

AutoCAD

AutoCAD Civil 3D

Sap2000

Revit

3Ds Max

Primavera P6

Microsoft (Excel - Word - PowerPoint)

Teledyne PDS

WORK EXPERIENCE

- **Junior Site Engineer** 2020 - 2021
M-Group for constructions
Site: (Cornado North Coast)

Tasks:

- Assess potential risks, materials and costs.
- Reviewing multiple site drawings (Reinforcement - Structural - Architectural).
- making sure the project complies with legal requirements, especially health and safety.
- Supervising the implementation of works with the required quality.
- Conclude shop drawings and as-built drawings.
- Researching and providing estimates for projects.
- Project management duties (e.g. managing budgets, resources, and deadlines, acquiring and compiling quotes, etc.).
- Follow up on the required modifications and supervise their implementation.

- **Site Highway Engineer** 2021 - 2022
Sama-misr Office for Engineering Consultations
Site: (Damietta Sherbin West Road)
(Damietta Sherbin East Road)

Tasks:

- Application of FDR Machine.
- Reviewing multiple site drawings (Cross sections - Quantities - Superelevation - Settings Out - Markings).
- Full application on Civil-3D.
- Supervising the implementation of works with the required quality.
- Design and implementation of multiple types of bridges, intersections, and Horizontal and vertical curves.
- Application of Asphalt Milling Machine.
- Project management duties (e.g. managing budgets, resources, and deadlines, acquiring and compiling quotes, etc.).
- Follow up on the required modifications and supervise their implementation
- Follow up and conduct various on-site tests.
- Inspection of foundation layers and verifying their levels and compaction rate.
- Perform analysis for road conditions that requires maintenance and suggest the best solutions.
- Profile roadway alignments, and calculation of quantities for engineering estimates.

- **Site Dredging Engineer** 2022 - Now
National Marine Dredging Company (NMDC)
Site: (Bardawil Lake Development)

Tasks:

- Delineate the sand basin coordinates on the ground.
- Controlling the EME in the correct way to build the sand basins.
- Control the way the dredger works to avoid any delays in the work progress.
- Calculate the length of floating pipelines for each dredger.
- Full supervision of the site and ensuring continuity of work.
- Supervision of pipe welding works.
- Calculating dredged quantities and making related reports.
- Ensure that safety rules are fully applied to avoid any incident.
- Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.
- Evaluate dredging performance on a daily basis and proactively adjust the dredging approach to enhance the dredging performance.
- Provide insights in the dredging performance estimates and the actual dredging performance.
- Compare the dredging performance with estimates done and provide valuable reports.
- Prepare daily, weekly and monthly progress reports.

OBJECTIVE

Seeking a career that is challenging and interesting, and lets me work in the leading areas of technology, a job that gives me opportunities to learn, innovate and enhance my skills and strengths in conjunction with company goals and objectives, I am looking for an opportunity in a reputed organization which will help me deliver my best and upgrade my skills in engineering and meet the demands of the organization.

PERSONAL QUALITIES

- Effective communication and interpersonal skills.
- Ability to quickly grasp new concepts.
- Self-learning ability.
- Diligent and organized.
- Technologically competent.
- Problem solver.
- Creative.
- Punctual.

LANGUAGES

- Arabic (Native)
- English (Fluent)

AWARDS & CERTIFICATES

- Experience certificate.
- Safety Training for Supervisors certificate.
- Basic Fire Fighting certificate.
- Accident Investigation certificate.
- Basic First Aid certificate.
- How to deal with snakes and scorpions bites certificate.
