

Osama Elashry

Civil Engineer

Phone Number: +201204363849

Address: tanta – Gharbia - egypt

Email: oelashry4@gmail.com

Military case: Exempted

LinkedIn: www.linkedin.com/in/osama-elashry-16110

Objective

Experienced civil engineer . Skilled in excuation , Revit , Primavera P6, and Microsoft Office applications (Word, Excel and Power Point). A goal-oriented person, young enthusiastic professional, self-motivated and can work under minimal supervision. Looking forward to an organization that offers exceptional career development opportunities and interesting engineering challenges to improve my knowledge and skills in the construction, planning and modeling field as Emaar Al Delta company.

Education

Oct 2019 – July 2023 Faculty of engineering, Tanta university

Bachelor's in civil engineering **very good with honor (82%) seventh on my department.**

Graduation project (project management with an **excellent degree**).

Bachelor's graduation Project at project mangement

It was a lift station at the new administrative capital, and we Executed a quantity take-off project. Established a tentative project timeline using Primavera P6. Conducted a project cost estimation. Carried out a risk management study for potential risks. Conducted a Value Engineering study to explore the most economical alternatives for certain project items. Conducted an environmental impact assessment of the project using Tally plug-in for Sustainability. Created a visual presentation of the project using 5D Simulation by Navisworks technology (combining 3D model, time, and cost).

And I was the team leader Distributed tasks among team members and facilitated discussions. Led a team of six individuals to execute assigned tasks.

Work Experience

May 2024 – present Site engineer

at celebration west beach / Amer Group Company

consists of 41 villas and a building of 7 floors

- Coordinating between contractor and consultant.
- Reviewing the contractor's work according to structural and architectural drawings.
- Carrying out the work according to the schedule provided in the contract.
- Tracking for all phases of project planning and design from initial design.
- Coordinating the design and its implementation with the disciplines of electrical, mechanical, architectural and structural engineering.
- Following up the monthly milestones and reporting monthly progress.
- Following up (shop drawings- materials) approvals and scheduling.
- Monitoring and managing document control division for tracking project's data and history.
- Onsite handling daily civil & Arch. Inspections, materials inspections, laboratory test and consultant's inspections
- Coordination between construction, Planning and Quantity survey for daily/ weekly progress.

Dec 2023 – Feb 2024 BIM Modeler (freelancer).

- Modeled existing buildings using point cloud data, focusing on architectural facades.

- Generated models for buildings based on available architectural drawings.
- Made necessary adjustments to the architectural facades to ensure alignment with the original designs.

Oct 2023– Jan 2024 Finishing Engineer (freelancer) , ibyar, Gharbia, Egypt

- Engaged in discussions with the client regarding design aspects.
- Handled procurement of necessary supplies and ensured client satisfaction.

Aug– Nov 2022 Finishing Engineer (freelancer) ibyar, Gharbia, Egypt.

- Managed communication and task coordination among about 20 worker.
- Oversaw the implementation of electrical, carpentry, plumbing installations and finishing works.

Training

Sep–Oct 2023 Civil Engineer

Al-Binaa company for modern contracting, a school at kafr elarab .

- Supervised the renovation of an existing building for improvement and modernization.
- Read and understood the architecture and structural drawings.
- Provided assistance through my expertise to accelerate work processes.

Aug 2022 Civil Engineer

Yathrib contracting company, faculty of engineering Tanta university.

- Managed building construction activities on-site and used dumpy level survey.
- Read and understood the architecture and structural drawings.

Aug 2021 Civil Engineer

Emaar al delta company, Alsalem university.

- Supervised concrete works for the college's bleachers.
- Oversaw finishing works for the college building.

July 2021 Civil Engineer

the Arab contractors (Osman Ahmed Osman), the police hospital at mahallat marhum .

- Oversaw finishing works.
- Ensured timely delivery of completed works to the consulting office.

Courses

OCT 2024 – present shop drawings ASD and manual with Eng Hesham Tarek

NOV 2022 – FEB 2023 Revit , primavera , Navisworks , enscape (self-learn)

Skills

Computer Skills: -

| | | | |
|--------------------------|-----------|--------------------|-----------|
| Autodesk Revit | very good | AutoCAD | good |
| primavera | very good | Navisworks | very good |
| enscape | very good | quantity surveying | very good |
| word, excel, power point | very good | | |

Languages Skills: -

| | | |
